Product sheet

Connected lighting micromodule with dimmer option 150w led

REF. 064899 | EAN. 3414972365871

> Visit e-catalogue

Product charateristics

- Max load power : 150W under 230V~, all loads leds included
- Compatible with traditional or dimmable bulbs, including LED. Dimmer activatable via Home + Control App
- Several "... with Netatmo" wireless switches can be paired in order to create a wireless two - way lighting switch
- Equipped with an auxiliary entry for a mechanical push button
- Radio technology 2.4GHz, using Zigbee 3.0 protocol, reliable and secure

Recommendation / Restriction

- To connect your connected lighting micromodule (with dimmer option), it is necessary to purchase and install a "... with Netatmo" connected starter pack beforehand. To control it as a 2 way switch, it is necessary to associate one or more "... with Netatmo" wireless commands to it and / or wire it with a mechanical push button.

The product's benefits

Installation

- The connected lighting micromodule with dimmer option is easily installed in a ceiling light or in wall lighting strips

Usage

- Control your lights with your voice using a vocal assistant

Avantages

- Compact and powerful (150W LED)
- Using ON/OFF mode, compatible with all type of loads, dimmable or not
- Can fit into any wall box for a discrete integration
