## LEGRAND

Surge arrester T1+T2 12.5KA 1 pole+N Neutral on the right +SD

REF. 412255 | EAN. 3414970518286

[> Visit e-catalogue](#)

## Product characteristics

- T1+T2
- 12,5KA
- 1P+N ND +SD

## Recommendation / Restriction

- "To provide correct protection, a lightning arrester is recommended: - at the origin of each installation (mandatory depending on the type and location of the installation to be protected, - at the origin of divisional switchboards: secondary protection or fine protection of sensitive equipment, - on all outputs of external electrical circuits (supply to secondary buildings, external lighting or external electrical panels, etc.). A communication network arrester should always be installed to protect communication equipment in the presence of a lightning arrester on the low-voltage network."
