Cable management spools effectively manage excess fiber cable slack, providing flexibility and the proper bend radius for cables.

> Visit e-catalogue

Description

Cable management spools effectively manage excess fiber cable slack, providing flexibility and the proper bend radius for cables.

Product charateristics

- Colour black
- They mount at rack unit intervals on the Front of the 6″ wide vertical manager or on the Front and rear of the 10″ and wider vertical managers with fingers

Recommendation / Restriction

- Mount at cable duct with door (446152): Provides bend limitation and slack storage for copper and fiber cords.
