LEGRAND

KNX router IP din

REF. 003545 | EAN. 3414972052412

> [Visit e-catalogue](#)

Product characteristics

- DIN 2 modules
- Ethernet RJ45 connector
- Power supply 24 VDC (12V... 30V DC)
- Functional status information with 6 LEDs

Recommendation / Restriction

- Configuration through ETS tool from KNX association

The product's benefits

Installation

- Connected with the BUS/KNX cable & IP address assignment manually or by DHCP server

Usage

- Simultaneous connection to two different KNX systems and transmission of telegrams between the local network and different buses

Avantages

- Because a broad range of KNX devices communicate with each other, (even if they are from different manufacturer) KNX technology answers to high demands for smart home or building thanks to endless flexibility and personalization
- Option to block or allow telegrams between KNX and IP regarding configured filter table
