Product sheet

LEGRAND

KNX router IP din REF. 003545 | EAN. 3414972052412

> Visit e-catalogue

Product charateristics

- DIN 2 modules
- Ethernet RJ45 connector
- Power supply 24 VDC (12V... 30V DC)
- Functional status information with 6 LEDs

Recommendation / Restriction

Configuration through ETS tool from KNX association

The product's benefits

Installation

 Connected with the BUS/KNX cable & IP address assignment manually or by DHCP server

Usage

 Simultaneous connection to two different KNX systems and transmission of telegrams between the local network and different buses

Avantages

- Because a broad range of KNX devices communicate with each other, (even if they are from different manufacturer) KNX technology answers to high demands for smart home or building thanks to endless flexibility and personalization
- Option to block or allow telegrams between KNX and IP regarding configured filter table
